# 1 My strcasecmp

Files to submit:

- my\_strcasecmp/my\_strcasecmp.c

Provided files:

- my\_strcasecmp/my\_strcasecmp.h

**Authorized headers:** You are only allowed to use the functions defined in the following headers:

- err.h
- errno.h
- assert.h
- stddef.h

## 1.1 Goal

You must implement the following `my_strcasecmp` function :

```
int my_strcasecmp(const char *s1, const char *s2);
```

This function must have **exactly** the same behavior as the `strcasecmp` function described in the third section of the man. This function will be tested only with characters between 0 and 127 included.

*It is my job to make sure you do yours.*
