1 Pointer swap

Files to submit:

- pointer_swap/pointer_swap.c

Authorized headers: You are only allowed to use the functions defined in the following headers:

- assert.h
- errno.h
- stddef.h
- err.h

1.1 Goal

Write a function that takes two *pointers to pointers* to `int` and swap the contained address.

```
void pointer_swap(int **a, int **b)
```

You need not handle the case where `a` or `b` are `NULL`.

It is my job to make sure you do yours.
