# 1 Power

**Files to submit:**

- my\_pow/my\_pow.c

**Authorized headers:** You are only allowed to use the functions defined in the following headers:

- errno.h
- err.h
- stddef.h
- assert.h

## 1.1 Goal

Write a function that computes  $a^b$ . But since we want to produce optimized code, your function must not iterate more than  $b/2$  times.  $b$  will be positive or null.

```
int my_pow(int a, int b);
```

*It is my job to make sure you do yours.*
