1 Repeat

Files to submit:

- repeat/repeat.c

Authorized functions: You are only allowed to use the following functions:

- puts(3)

Authorized headers: You are only allowed to use the functions defined in the following headers:

- errno.h
- stddef.h
- err.h
- assert.h

1.1 Goal

Write a program with only a `main` function that takes a string `str` as a first argument, an integer `n` as a second argument and that displays the `str` string using the function `puts` `n` times followed by a newline on the standard output. Return 1 if the number of arguments is not correct, 0 otherwise.

Note: The second argument will be valid and between 0 and 9.

```
42sh$ ./repeat 'Like this' 3
