1 my_strlen

Files to submit:

- my_strlen/my_strlen.h
- my_strlen/my_strlen.c

Authorized headers: You are only allowed to use the functions defined in the following headers:

- stddef.h
- errno.h
- assert.h
- err.h

1.1 Goal

You must implement the following `strlen(3)` function :

```
size_t my_strlen(const char *s);
```

This function must have the same behavior as the `strlen(3)` function described in the third section of the man. Your code will not be tested with `NULL` pointers.

It is my job to make sure you do yours.
